The Future of Aviation - A Beginning with EAA Chapter 40

Inspiring the dream of flight and making it a reality

The Family of EAA Chapter 40

When an airplane flies overhead ...does the world stop for a moment as you search the skies for that beautiful symphony of sound?

Come join a family that also looks to the sky, searching the heavens for that chorus of propulsion and whistling wings?

Whether you are a “Sky-Gazer”, a Pilot or an Engineer, EAA Chapter 40 is where we support your aviation dreams, big or small. EAA Chapter 40 founded in 1971, has launched an updated flight plan!!! We have retaken the active, ignited the JATO booster, launching into the blue with new ideas and programs creating a friendly, fun, environment.

If you are interested in airplanes and aviation
EAA Chapter 40 is the place for you!

We will show you that reaching for the sky ...is just the beginning.

“Man must rise above the Earth—to the top of the atmosphere and beyond—for only thus will he fully understand the world in which he lives.”

- Socrates

Chapter Meetings - 3rd Saturday of the Month - 9:30 a.m. - Whiteman Airport

What makes EAA Chapter 40 the place to find your journey to the sky and beyond?

We support aviation in all of its forms.

EAA Chapter 40 is a vibrant and passionate community of aviation enthusiasts who share your love for aircraft and aviation.

IN OUR FAMILY YOU WILL FIND...

- **Aircraft Building Experience:**
“Novice” & “Expert”, find EAA Chapter 40 offers a place to hone your skills, embarking on exciting projects.
- **Inspiration for Youth:**
With five new scholarship candidates and one of the largest Young Eagles programs in EAA, we help inspire the next generation of pilots.
With Project: JACKPOT, we help inspire the next generation of engineers with hands-on experience, building a Zenith CH750 Cruiser.

- **Resources and Expertise:**
Our hangar space provides our members and our programs ample room to work. (Fees may apply) We enjoy a wealth of knowledge and resources that cover all aspects of experimental aviation, from technical know-how to regulatory guidance. Members of Chapter 40 also gain access to our increasing number of specialized aviation tools, saving money and time on their own aircraft build project.
- **A Legacy of Tradition and Fun:**
EAA Chapter 40 began life June 2, 1971. We exist and grow through what we call “The Circle of Flight”. Members are supported in the building of their own world of aviation, from sky-gazing opportunities, encouragement while working on a pilot’s license or with help building their own aircraft. They then gain the opportunity to join our youth outreach through EAA Chapter 40’s “Young Eagles” or “Project:JACKPOT”. “The Circle of Flight” is completed when students choose to build their own plane or pilot ratings, and then fly Young Eagles or return as instructors with Project:JACKPOT. Along this adventurous journey, members of all ages participate in BBQs, project visits, and soon, our own VFR-Club excursions.

This and so much more is what makes this aviation family at EAA Chapter 40, the place for you.
